

CAUTION ADVISORY

Online Counterfeit Products

Environ® products are available through trained and certified medical aesthetic skin clinics in over 75 countries around the world and coast-to-coast in Canada.

Online counterfeiting is a problem that consumers need to be aware of. It is a problem faced by many luxury, quality and iconic brands that are in high demand and Environ is no exception.

SkinHealth Canada Clinic Partner Commitment

Due to the level and complexity of active ingredients in Environ products we are committed to selling Environ through our professional clinic partner channel in Canada. We require all of our Clinic Partners to be trained and certified with Environ and to sell Environ through a personal skin consultation only.

Our Consumer Warning

You can find "too good to be true" deals on internet sites. The most important things you can do to protect yourself are:

Be Informed: Purchase only authentic Environ® products from an official Environ Stockist following a full and complete consultation. In doing so you may avert a possible skin reaction, health issue, or prevent yourself from receiving an expired product or counterfeit product that has none of the ingredients you expect it will.

Avoid potential internet fraud with your credit card: If it seems too good to be true, it really is. It is not the policy of SkinHealth Canada or any ENVIRON® stockist in Canada to accept returns, exchanges for products purchased on-line.
