

Build Healthy Collagen

Product Datasheet:
Marine Collagen + Co-Factors

Boost Collagen Levels

Collagen production starts declining in your 20's. By age 80 collagen production is reduced by 70%. In addition, collagen is constantly under attack by free radicals which damage and weaken the collagen matrix. The decline in collagen production along with the increase in collagen damage results in significant changes in the skin: fine lines, furrows, roughness, and wrinkles.

Support

Protect

Repair

Don't Just Build Collagen. Build Healthy Collagen.

Fish-derived collagen peptides are significantly better absorbed.

Collagen peptides are typically derived from pig and cow hides, largely because they are abundant by-products and cheap to produce. Fish skin derived collagen peptides, have been shown to be significantly better absorbed.

Specially formulated with collagen co-factors.

Vitamin C and the mineral silicon are essential co-factors in a process called collagen crosslinking. This process improves collagen strength, function, and makes it more resistant to damage. Additionally, vitamin C is an important skin antioxidant and silicon improves the health of hair and nails.

Easy to Take and Delicious.

**Choose from Three Natural Flavours:
Strawberry, Unflavoured, Coconut**

Taking Marine Collagen + Co-Factors is as easy as mixing 2.5 teaspoons in a glass of water or beverage of choice. With the fresh taste of natural strawberry, or coconut flavour, lightly sweetened with organic stevia leaf extract (rebaudioside A), it's love at first sip. Or enjoy our pure unflavoured option any way you like.

Marine Collagen + Co-Factors

Benefits for Healthy Skin, Hair, and Nails

-  **Build**
 Helps in collagen formation
-  **Support**
 Helps to maintain healthy skin, hair, and nails
-  **Protect**
 Source of an antioxidant that helps protect against free radicals
-  **Repair**
 Helps in wound healing

Active Ingredients

Marine collagen peptides (4500 mg)

- From premium grade wild cod fish
- From fresh-frozen fish skins
- From sustainably managed fisheries (Iceland)
- Low environmental footprint
- High peptide bioavailability
- Source of the amino acid lysine (140 mg)

Vitamin C (50 mg)

- From organic acerola cherries
- Whole food source
- Promotes collagen crosslinking
- Skin antioxidant

Silicon (10 mg)

- From organic-compliant bamboo
- Whole food source
- Promotes collagen crosslinking
- Boosts hair and nail health
